

the Exhibition next year. Copies of this register of lodgings may be had on application. Other arrangements are under consideration for guiding the working-classes on their arrival by the trains to the lodgings they may select. The register contains a column in which the particulars, &c. of the accommodation each party proposes to afford will be entered. All applications for participating in these arrangements must be made through local committees. It must be clearly understood, that, whilst Her Majesty's Commissioners are desirous of collecting the fullest information likely to be serviceable to the working-classes, they do not propose to charge themselves in any respect with the management, but simply to afford information.

**SPECIAL INSTRUCTIONS TO COLONIAL AND FOREIGN EXHIBITORS.**

Colonial and foreign productions will be admitted without paying duty, for the purposes of exhibition, but not for internal consumption. Her Majesty's Commissioners of Customs will consider all such articles as bonded goods.

**ARRANGEMENTS MADE BY THE BOARD OF CUSTOMS.**

That all works intended for the Exhibition will, in the first instance, be admitted into this country without payment of duty; the goods will not be subject to examination at the water-side, but be conveyed to the place of exhibition, at the expense of the importer, under charge of proper officers of the Customs, to be there opened by the importer or agent, and examined in the presence of the proper officer of the Customs, in order to assess the amount of duty which would become payable thereon if sold in this country, and such marks attached thereto as may be necessary to maintain the identity of the goods. The goods brought for exhibition will be considered as warehoused, under the warehousing regulations, in the premises appointed for the Exhibition; and security must be given in each case for the due re-exportation of the goods, or payment of the duty, at the close of the Exhibition. No goods liable to duty to be on any account removed from the premises until the termination of the Exhibition, and then only on payment of the duty, or for re-exportation.

**THE PRIZES AND JURIES.**

Her Majesty's Commissioners have had under their consideration the subject of the prizes to be awarded to exhibitors, and have resolved to take immediate steps for having (three) medals struck of various sizes and designs, it being their opinion that this is the form in which it will, generally speaking, be most desirable that the rewards should be distributed. They have decided to select bronze for the material in which the medals are to be executed, considering that metal to be better calculated than any other for the development of superior skill and ingenuity in the medallic art, and at the same time the most likely to constitute a lasting memorial of the Exhibition. It is the intention of the Commissioners to reward excellence in whatever form it is presented, and not to give inducements to the distinctions of a merely individual competition. Although the Commissioners have determined on having three medals of different sizes and designs, they do not propose to instruct the Juries to award them as first, second, and third in degree for the same class of subjects. No competitor for a prize in any section will be allowed to act upon a jury to award the prizes in that section. The names of persons selected to act on these juries will be published when decided upon. All persons, whether being designers or inventors, the manufacturers or the proprietors, of articles, will be allowed to exhibit; but they must state the character in which they do so. They may also state the names of all or any of the parties who have aided in the production. In awarding the prizes, however, it will be for the juries to consider, in each individual case, how far the various elements of merit should be recognised, and to decide whether the prize should be handed to the exhibitor, or to one or more of those who have aided in the production.

**CLASSIFICATION.**

The articles exhibited will be divided into four sections:—  
*Section I.*—Raw Materials and Produce—illustrative of the natural productions on which human industry is employed.

*Section II.*—Machinery for Agricultural, Manufacturing, Engineering, and other purposes, and Mechanical Inventions—illustrative of the agents which human ingenuity brings to bear upon the products of nature.

*Section III.*—Manufactures—illustrative of the result produced by the operation of human industry upon natural produce. Designs for Manufactures are to be admitted in the same section with the class of articles for which they are proposed.

*Section IV.*—Sculpture, Models, and the Plastic Arts generally—illustrative of the taste and skill displayed in such applications of human industry. Articles belonging to one section may be admitted to another, where they may be considered necessary, but in such cases for illustration only.
