

**PREVIEW:**  
**Victorian Image Collection: Flowers & Plants**

This preview brings you thumbnail images of our complete **Flowers & Plants** clip art package.

Please note that these are thumbnails only and *not* to scale. Thus, you may find a 2-inch image side-by-side with an 8-inch image – and they’ll appear exactly the same size. Our purpose is to simply provide an overview of what our package contains.

This preview also includes our license agreement and list of image sources.

---

Our **Flowers & Plants** collection brings you 1096\* *fully edited* b/w Victorian images. The collection includes both realistic representations of flowers (generally with captions to identify them) and beautiful bouquet assortments that were used as page decorations, full-page illustrations, poetry frames and more. It also includes images of plants, fruits, leaves, seeds, mushrooms and more.

These images have been painstakingly edited to restore them as closely as possible to their original condition. The majority of these images are presented at 600 dpi, and, of course, at their full, original size. They are ideal for framing, art projects, publication, crafting and scrapbooking, classroom use and more. Enjoy!

Moira Allen - [editors@victorianvoices.net](mailto:editors@victorianvoices.net)

*\*As of this writing. I often discover new images, or inadvertent duplicates, so the final total may vary.*

## **VictorianVoices.net Image User Agreement**

Our images and prints come from sources in the public domain. That means we cannot and do not claim “copyright ownership” of individual images. It also means that no one else can claim copyright to these images - including you, even if you alter them.

We’ve seen collections with highly restrictive license agreements - collections that only allow you to make a limited number of copies, or use images only for personal projects, etc. We have no such restrictions (and we’re not even sure such restrictions are legal!).

You may use our images for any sort of project you wish. You may use them for personal projects or for commercial products. You may use as many images as you wish, and you may make as many copies of an individual image as you wish. You can use images in publications with no restrictions on the number of copies published. You can use them to create products on sites like Café Press or Zazzle. If you are selling a product, you can make as many products as you like.

Our single restriction is this: *You may not reproduce any VictorianVoices.net image collection as a whole or in part to resell as your own image collection*, either in print or electronically, or in any other format now known or likely to become available in the future (including Klingon data crystals). If you wish to use a selection of images in a different type of collection (for example, if you wished to use a collection of quilt patterns in a larger collection of Victorian quilt patterns), please contact us for permission at [editors@victorianvoices.net](mailto:editors@victorianvoices.net).

**Your purchase of any image and/or print collection from VictorianVoices.net or our associated Etsy store constitutes your acceptance of these terms.**

## Illustration Sources

**NOTE:** Publications that produced two bound volumes per year (including *Century*, *English Illustrated Magazine*, *Harpers* and *The Strand*) may be designated “A” or “B” (e.g., C1897A) to indicate the first or second volume for that year.

- A# or VSA** - Scrapbook Album (#) - dated if known  
**AJ** – *Art Journal*, London, as dated (magazine)  
**AN** - *Museum of Animated Nature*, edited by Charles Knight, ca. 1856

THE DANDELION  
The dandelion is the most common of the weeds which grow in the garden and in the field. It is a very hardy plant, and will grow in any soil, and in any climate. It is a very useful plant, and is used in many ways. The leaves are eaten as a salad, and the roots are used as a coffee substitute. The seeds are used as a food for many birds and insects.
