

Victorian Image Collections: Victorian & Historic London (edited)

This collection brings you 1119* fully edited images of **Victorian and Pre-Victorian London**. The majority of these images are in black and white, but there are a few lovely prints and color images as well!

London, of course, was the heart of the Victorian world. For Britain, it was the center of Victorian government, Victorian trade, Victorian culture, fashion and more. This collection offers images from a host of Victorian magazines and books, including Charles Knight's monumental work, *London*, from approximately 1860. Here you'll find images of London as it was in the Victorian era, as well as historic images of buildings, palaces, churches and more that had already vanished into history by the 1800's. These beautiful engravings offer a remarkable look at the city many considered to be the center of the world!

The majority of these images are presented at 600 dpi, and, of course, at their full, original size. They are ideal for art projects, scrapbooking, classroom use and more. Enjoy!

Moira Allen - editors@victorianvoices.net

**As of this writing. New images are always being added, so the final total may vary.*

VictorianVoices.net Image User Agreement

Our images and prints come from sources in the public domain. That means we cannot and do not claim “copyright ownership” of individual images. It also means that no one else can claim copyright to these images - including you, even if you alter them.

We’ve seen collections with highly restrictive license agreements - collections that only allow you to make a limited number of copies, or use images only for personal projects, etc. We have no such restrictions (and we’re not even sure such restrictions are legal!).

You may use our images for any sort of project you wish. You may use them for personal projects or for commercial products. You may use as many images as you wish, and you may make as many copies of an individual image as you wish. You can use images in publications with no restrictions on the number of copies published. You can use them to create products on sites like Café Press or Zazzle. If you are selling a product, you can make as many products as you like.

Our single restriction is this: *You may not reproduce any VictorianVoices.net image collection as a whole or in part to resell as your own image collection*, either in print or electronically, or in any other format now known or likely to become available in the future (including Klingon data crystals). If you wish to use a selection of images in a different type of collection (for example, if you wished to use a collection of quilt patterns in a larger collection of Victorian quilt patterns), please contact us for permission at editors@victorianvoices.net.

Your purchase of any image and/or print collection from VictorianVoices.net or our associated Etsy store constitutes your acceptance of these terms.
